TITLE INDEX TO VOLUME 11

Acceleration wave propagation in an inhomogeneous heat-conduction elastic rod of slowly varying cross section, 127

Asymptotic solutions for thermal stress and deformation in orthotropic nonhomogeneous shells of revolution, 305

Boundary integreal equation analysis for steady thermoelastic problems using thermoelastic potential, 341

Continuous data dependence in the dynamical theory of nonlinear thermoelasticity on unbounded domains, 57

Elastic-plastic deformation of a sphere subjected to a spherically symmetrical temperature field, 159

Elastic-plastic disks with jumplike variable thickness under purely thermal loadings, 273

Green's functions for subsurface thermal stresses due to surface heating, 1

Initially stressed thermoelastic dielectrics, 421

Lagrange identity in thermoelasticity with one relaxation time, 207

Large deformation of antisymmetric angle-ply laminates resulting from nonuniform temperature loadings, 287

Nonuniformitiies and stability in thermal fluid mechanics, 325

One-dimensional generalized thermoelastic problem for a half-space, 257

Optimal heating problem for transient thermal stress in a thick plate, 141

Shape optimization of thermoelastic solids, 187

Spectral analysis of coupled thermoelastic waves, 175

State space approach to generalized thermoelasticity, 353

Stress intensity factors for a transversely isotropic infinite solid containing an annular crack, 39

Thermal deformations and stresses in circularly curved thin beams and rings, 233

Thermal stresses due to a uniform heat flow past a circular hole with a radial edge crack, 393

Thermal stresses in composite tubes using complementary virtual work, 93

Thermal stresses of a cracked circular hole due to uniform heat flux, 381

Thermal vibrations of thin cylindrical shells, 77

Thermoelasticity of a regularly nonhomogeneous thin curved layer with rapidly varying thickness, 405

Thermoelasticity of initially heated bodies, 17

Transient thermal stresses in a rectangular plate due to nonuniform heat transfer coefficients, 115

Transient thermal stresses in an infinite plate with two elliptic holes, 367
